

**Engineer (Fixed Term Contract until 31<sup>st</sup> August)**

**Location:** Newton Abbot

**Salary:** Circa £33,000

**Closing Date:** Monday 29 April 2019

**So what will I be doing?**

As a Maintenance Engineer you will be joining the Engineering team in an established, distinctive and ambitious food manufacturing company that is committed to making great British dairy the right way. Forever. Working closely with the wider engineering team you will be responsible for ensuring the smooth operation of machinery and that production can be carried out using the machinery in the most effective and efficient manner.

**Shift Pattern:** 12 hours, 4 on 4 off night shifts.

Key responsibilities will include:

- Carrying out both planned preventative and reactive maintenance on machinery and plant across the site at Newton Abbot
- Minimising down time and fault finding on a range of machinery in a fast paced and large scale manufacturing environment
- Assisting with root cause analysis, continuous improvement and general daily operational efficiencies and diagnostics of breakdowns
- Assisting with project work as and when required including the introduction of new plant and equipment, and continuous improvement activity

**Sounds interesting, what do I need?**

- Experience of working as a Maintenance Engineer in a manufacturing environment
- Knowledge and understanding of Health & Safety and good working practices
- Ideally you will have worked in food manufacturing or FMCG production environments previously
- Preferably multi-skilled (mechanical/electrical) with strong electrical knowledge
- PLC experience would be a bonus, training can be provided

**How do I apply?**

To apply please send a copy of your CV and a covering letter to [careers@yeovalley.co.uk](mailto:careers@yeovalley.co.uk)

**Closing date:** Monday 29th April 2019

Please bear in mind that our closing dates are used as a guide for when the application window is expected to close. We reserve the right to close the application window sooner than the date displayed if we can. **We therefore recommend that you get your application in straight away – and don't miss the opportunity to join us.**

## **Why should I join the family?**

At Yeo Valley we are independent, British and proud to be making the highest quality yogurts desserts and ice cream for Yeo Valley Organic as well as many of the UKs major retailers. Operating from four dairies and two logistics centres in Somerset and Devon, we employ over 1700 staff and produce more than 1:4 of the UK's yogurt.

We're sure you don't need convincing, but there's a whole host of benefits that we offer including: competitive holiday allowance, plus bank holidays, pension scheme, healthcare, childcare vouchers, cycle to work scheme, subsidised products and services and preferable rates with our partners.
